THE COMET arrived on Monday afternoon from San Francisco in eighteen days, which is an unuspsnally long telp down for that packet. It is impossible for any vessel to make a quick passage, bowever fast she may be, without favorable winds, and the weather experienced during the trip afforded the Comet anything but a fair opportunity for making her usual time. She will not remain long in port, as considerable freight and a large number of passengers are already engaged. "

A Mystery.-The remains of a native man was ecently discovered on Launi, and appearances seem to indicate that his death (which occurred about nineteen months since) was caused by unfair means. An inquest was held, but nothing definite has been received at police headquarters as yet, in regard to the affair, sittiongh the above information was received by the steamer on Saturday morning. The Sheriff of Maul, who acted as Coroner, will doubtless turnish full particulars by first opportunity.

BENEFIT .- Mr. Wallace, of the California Minstrels, takes a benefit at the Royal Hawaiian Theatre to-morrow evening. The portraits of the late Princess Victoria, his Highness M. Kekuseson, the King's late father, and that of his Majesty, depicted upon them, are the finest postal portraits ever engraved."

> THE OPERA -- On Monday evening, Madame States' Opera Troupe performed, before a crowded audience, the whole opera of "Don Pasquale." Though the "Barber of Seville," on Monday even ing of last week, was, in our opinion, much more amusing and better rendered, the performence of "Don Pasquale" was a great treat to the public, who, to say the truth, enjoyed it " hugely." On Seturday evening next, by request of His Majesty the King, the "Barber of Seville" will be again presented. His Majesty the King and Her Malesty Queen Emms, have henored nearly every night of the opera season with their presence at the Theatre.

> THE D. C. MURRAY sailed on Wednesday afteroon last for San Francisco, followed by the R. W. Wood on Thursday about the same bour. The Murray appeared to be in excellent trim for sailing, and everything about her, to a nautical eye especially, looked ship-shape. The Wood presented a smart appearance also, looking quite capable of giving the former packet a close run, though she was perhaps scarcely deep enough to show her points of salling to the best advantage. However, the respecti qualities of these fine vessels will have a fair opportunity of being tested on the trip over, as they are known to be fast sallers. Both vessels have taken quite a number of passengers, and we hope they will meet with favorable weather, which will per mit them to make a pleasant and rapid passage over.

Late Foreign News.

By the Comet, arrived at this port on Monday, eighteen days from San Francisco, we have dates to the 18th from that city and Eastern telegrams to the 17th ult. Full details of the great Chicago fire are received by this mail. Although the loss of property by that great disaster was not exaggerated, we are happy to be a le to announce that the loss of life was greatly over estimated. It is now supposed that instead of a thousand or twelve hundred ring lost their lives during that great conflagra tion, as was at first feared, there were not many more than a hundred victime to the derouring clement. A still more harefule catastraphe than the great Chicago fire has betallen large districts in porthern Wisconsin and Michigan. Fourful fires have been raptur in the woods, which have destrated whole villages. It is estimated that no less than 1,300 men, women and children have lost their lives in this terrible conflagration. The region over which the fire spread is entirely deso lated, and those who escaped the fire have before them a ginomy prospect of starvation unless sid is speedily rendered. We give below latest telegrams:

New York, October 11th -A St. Louis desputch mys the Chicago fire was extinguished last night by a heavy rain. Every newspaper was destroyed, and the proprietors are telegraphing East for power presses. The fire extended to Twenty second Street between Wabash and State streets is in ashes. Over 25,000 dwellings were destroyed.

An agonizing appeal of the authorities goes out for help, and the whole country is aroused to succor the suffering ones. There was a fearful panic in Wall Street at the loss by the fire in ressuls, elevators, banks, hotels, theatres, railroad 3 o'clock A. M. (Sunday) the Western Union Telegraph operator was driven from the office, corner of State and Twenty-second streets.

The number of people rendered homeless, based upon the recent census, puts the total at not less thus 110,000, distributed as follows: In the North Division, 85,000, or all but 5,000 of the entire popu lation of the Division; in the South, 20,000, and in the West Division, 5,000.

The attempt to indics Comptroller Connolly fell election canvassers to do right has been organized. in thirteen wards in New York.

DETROIT (Mich.), October 12th.-The news from Van Clair and Huron counties in this State is of the most distressing character. All that portion of the State east of Saginaw, and north to a point forty miles above Port Huron, has been completely swept by fire, and a number of lives have been The villages of Forestville, White Rock, South Beach and Huron City are entirely destroyed. Rock Falls and Fort Hope are partially burned Nothing has yet been board from Port Austin or Port Crescent, but it is hardly possible they have

Chicago, October 15th .- The latest reports from the terrible fires in Northern Wisconsin and Michigan represent the loss of life as being fearful, some r 800 dead bodies having already been rerecovered, and it is believed that the number will reach fully 1,000, and the wounded fully 250. This mprises fully three quarters of the population Millwauker, October 15th .- Later accounts from Northern Wisconsin confirm all the previous reports

and rumors. The loss of life in the neighborhood of the burned village of Poshtigo will reach over 1,900, and fifteen per cent, of those injured cannot recover. The fire tornado was beard at a distance like the roating of the sea. Balls of fire were soon observed to fall like meteors in different parts of the town iguiting whatever they touched. People rushed with their children in their arms for a pince of safety, but the storm of fire was upon them and enveloped them in fiames, smoke, burning sand the river were suffocated and roasted alive.

This terrible scope happened on Sanday night, the 5th of October, sirendy made famous by the great Chicago horror. A member of the Relief Committee seat from Milwanker with supplies, says the only survivors were those who were for tunate enough to reach water-many throwing . themselves into the mill-pond and clinging to the floating logs. A number of these were, however drowned, by being thrown from the logs by mad dened horses and eattle that rushed into the water. The fiery exclose swept aver a tract of countr eight or ten miles wide. Every building, fonce, and all the timber are licked up clean by the tengue is fire. The town of Peshtigo numbered 2,000 inhabitents, one third of whom perished on that fearful

Reports from the east shore of Green Bay place the loss of life fully as high as at Peshtigo. The same account states that the immediate wants of people are supplied, but large amounts of provisious and clothing will be required for the coming Winter. Mayor Ludington of Milwaukes publishes the fol-

lowing appeal for aid: MILWAUKER, October 14th - The calemities that have betallen our State and some of our neighboring States are fully appulling. Over 1,500 men, women and children have been burned to death in Wisconsin slone, and their business, honses and farms to a large extent entirely destroyed. The very soil has been burned, and destroyed all their autumn and root crops. They are utterly desiltute, and will require full support at least till another season. Seven conoties in our own State are thus in great part ofterly desolated. Whole regions of country in western Michigan are in the same condition, and these fires are still raging and destroying.

Milwauker is doing all she can do. By her close neighborhood to Chicago she was enabled to send large quantities of supplies into that devastated city during the progress of the fire, feeding her firemen and exhausted citizens. Vast numbers of Chicago sufferers are now filling our houses and public build ings, and we ministered to their necessities. We have supplied bundred of tons of provisions, clothing, stores, and other needful articles to Chicago, Northern Wisconsln, and Western Michigan. We are doing our best, but the amount of suffering in our State is beyond our power alone to assuage. We appeal to the public for aid. We will be the dispensers of supplies to the sufferers in Wisconsin and Western Michigan, and we have made every necessary arangement to accomplish these purposes with economy and effect. All contributions in money may be sent to Alexander Mitchell, banker, and contributions of food, clothing, bedding and other necessary supplies, may be directed to Harrison Lud-ington. Harrison Ludington, Mayor.

CEICAGO October 16th .- There is wonderful activity in the South Division of the burnt district. Thousands of men are at work clearing away the debrie, recovering sales and putting up temporary building. Laboring men can find plenty to do, at

liberal wages. EUROPEAN. Lexpox, Oct 12-Meetings of sympathy with Chiesgo sufferers are being held, and active measures for relief are being taken on all sides. The Lord Mayor, supported by the leading houses has issued un appeal for subscriptions.

The meeting called by Minister Schneck will be argely attended. It is probable that the London Court of Common Conneil will devote large sums. At a meeting held at Birmington last night, presided over by the Mayor, a committee was appoint ed to collect funds. In addition to action for the future, six firms gave £100 sterling, on the spot. This amount collected will be sent by cable to Mayor Hall, to-night.
